

OBNINSK INSTITUTE FOR NUCLEAR POWER ENGINEERING

NATIONAL RESEARCH NUCLEAR UNIVERSITY MEPHI

PREPARATORY DEPARTMENT

EDUCATIONAL PROGRAM FOR FOREIGN STUDENTS

GENERAL INFORMATION

TARGETS OF THE PREPARATORY DEPARTMENT

The department is a major university structure in the system of preparatory education. Our main aim is to prepare foreign students who don't speak Russian for further studies in high-education and post-graduate courses as well as their introduction to the RF educational system and adaptation to the living conditions.

After completing the preparatory educational program in IATE MEPHI foreign citizens are able to continue studying in Russian at the RF high-education institutions, namely they:

- know Russian for studying and communicating in educational, professional, social and cultural areas;
- master the system of discipline knowledge essential to continue studying in a Russian high-education institution;
- are psychologically prepared to study in a new social and cultural environment.

Our teachers are certified by the International Education Center at Moscow State University named after M.V. Lomonosov; they have worked with foreign students for many years (including work in foreign countries : Myanmar, China, Finland, Israel).

The Department staff can speak foreign languages, which allows to communicate with our students from their first days in Russia. We apply the advanced teaching methods using the newest lexical and grammar training materials.

The accumulated pedagogical experience, scientific and methodical potential of the Department staff allow to improve the system of teaching Russian as a foreign language and a number of other scientific disciplines in Russian.

MAJOR DISCIPLINES

Natural Sciences:

- Russian
- Mathematics
- Physics
- Chemistry

Engineering:

- Social Studies
- History
- Mathematics

Medicine-Biology

- Russian
- Chemistry
- Biology

-Physics

Humanities

-Russian

-Social Studies

-History

-Literature

EDUCATION

Our students study Russian language and also subjects of the chosen specialty. The most part of the year preparatory program is made by Russian course. Special teaches 'attention is paid to scientific language studying.

Preparatory program is full (day) form of education. The academic year lasting 8-10 months consists of autumn and spring semesters.

The program duration is 1 year. It includes:

- studying Russian (all-linguistic course and Russian-speaking terminology);
- studying basic subjects in Russian: Chemistry, Physics, Mathematics, Biology, Informatics, History, Social science and Literature (according to the chosen specialty).

Terms of studying year start are from September 1 to November 1..

Groups are formed of 12 students and depend on the date of arrival.

TRAINING ADVANTAGES

At present IATE MEPHI implements the innovative academic programs of preparatory education aimed at maximum diversity in most efficient usage of the existing university educational resources. We offer both group and individual studies. The combination of individual and group studies is possible. We can offer the choice of several programs:

1. Classical academic program (8-10 months — up to 1190 academic hours);
2. Individual program (individual studies, number of academic hours and duration of the studies are not limited);
3. Russian Summer School - the groups of different level, 3-8 students per group.

FREE-TIME ACTIVITIES

The Department staff is involved in different students' free-time activities, such as tours to Obninsk First-in-the-World NPP, Moscow and Moscow Region sightseeing tours, museums visits and sightseeing in Kaluga Region, organizing students' parties and performances, sport competitions.

Joint educational and out-of-class activity of students from different countries and communication with Russian students help to establish friendly relations, to do psychological and cultural adaptation easy and quickly.

INFORMATION FOR FOREIGN CITIZENS

Preparatory Department offers spacious, comfortable auditoriums, libraries. The campus and the dormitory have 24-hour security.

The university offers visa support and medical insurance issuance to the students.

The students' dormitory is located in the center of the city.

Students' rooms and common areas are fully equipped for comfortable living.

There are shops, chemist's, movie theater, stadium near the dormitory.

It is possible to get from the dormitory to the university by university bus, city public transport or taxi.
